

Pro Pricing

One license, one price — no per-user fees, no subscription required.

€299 one-time

per installation · unlimited users · 12 months of updates included

- ✓ All Pro modules: planning & budgets, offers, invoices, accounting connectors
- ✓ Self-hosted — your server, your data
- ✓ Persistent MySQL/MariaDB database
- ✓ Optional update & support renewal after year 1: €79/year

Try before you buy: without a license key, Pro runs as a free sandbox demo.

Why one license, not one seat

Self-hosting Timeminator already means no per-seat cloud fees. Licensing follows the same principle: **one license per installation, not per user** — a 5-person team and a 20-person team pay the same price.
